# GIANCARLO RAMIREZ REYES

---

I am a software developer with 9 years of experience, with the last 7 dedicated to specializing in Frontend Development. I've collaborated with start-ups and agencies across multiple industries, delivering high-quality digital products in sectors such as education, entertainment, and social networks. While frontend is my core strength, I also bring solid experience in backend development and cloud technologies, enabling me to contribute effectively across the full stack.

## SKILLS

|            |              |                        |
|------------|--------------|------------------------|
| Javascript | React Native | Nest.js                |
| Typescript | Next.js      | AWS                    |
| React.js   | Node.js      | Mysql, Postgres, Mongo |

## EXPERIENCE

### Banco de Crédito BCP - Hybrid – *Frontend Engineer*

August 2024 - Current

- Propose and document new Frontend Standards.
- Build reusable, testable and scalable React Components using React Native.
- Lead new features development and coordinate with Design, Product and Business teams.

### Novaworks S.A.C - Remote – *SR Frontend Developer*

March 2024 - August 2024

- Lead and develop CV AI Improvement platform for a local Startup. The tech stack is Next.js, Nest.js microservices, Azure OpenAI Service.
- Lead and develop Human Resources platform. Leveraged full Typescript stack with tRPC, Nest.js and Next.js.
- Lead Meta Chatbot development and integration with Shopify. This Chatbot helps SME businesses to sell 24/7.

## Taringa! - Remote — *SSR Frontend Developer*

March 2021 - February 2024

Taringa App Responsibilities:

- Contribute building and delivering a React Native application from scratch which had a positive impact on users from LATAM, Mexico and Spain.

Tools/Technologies: React, React Native, Typescript, React Context, React Query, Storybooks

Taringa NFT Store

Responsibilities:

- Contribute building and delivering an important feature (NFT Store) in Taringa that has an impact on millions of users.

Tools/Technologies: React, Node.js, Typescript, Redux, React Context, React Query, Storybooks

## Belatrix Software, LIMA - PERÚ— *UI React Developer*

September 2019 - March 2021

Build new features and give maintenance to legacy CMS tools for important Entertainment Brands like The Walt Disney Company, ESPN and ABC News.

Daily working with the following technologies:

- React.js, Redux
- Angular 1
- Vanilla Javascript
- Docker

## Aprendiendo.la, LIMA - PERÚ— *Fullstack Developer*

June 2018 - August 2019

Tech team at Aprendiendo.la is focused on delivering the best experience to students, making learning an enjoyable experience. We are also continuously providing tools so the business team can speed up their tasks.

What I do:

- Develop React JS, React Native apps, Rest API Endpoints.

What I use:

- Styled Components | Ant Design
- Ducks Architecture | Redux | React Router V4
- React Navigation | Native Base
- Webpack | Babel | ESLint
- PHP7 | Porto Architecture | Apiato | Laravel

## Good Practices

- Code review
- Continuous Delivering | Continuous Integration

## MOTORCOACH E-TICKET SOLUTIONS, TRUJILLO - PERÚ – *PHP Developer*

July 2016 – June 2017

A company dedicated to develop and maintain web applications for the Motorcoach Industry.

During this time I participated in multiple projects:

- Quatrobuss, UBUSOFT, Boleto Express API

Web applications and APIs to sell bus tickets in the United States and Mexico.

Main tasks executed in the project:

- Bugs solving.
- Technical documentation.
- Develop new features.
- Maintain system modules.

Upgrade transfer seat module, make it possible to transfer multiple seats by dragging and dropping.

Technologies: PHP, KOHANA FRAMEWORK, JQUERY, MARIA DB, JIRA, CRUCIBLE, CONFLUENCE, GIT.

## IDO CONSULTING, TRUJILLO - PERÚ – *Junior Developer*

August 2015 – March 2016

The company focused on the integration of client web applications and SAP Systems to offer the final user a friendly experience instead of interacting directly with SAP interfaces.

Technologies: JAVA, Spring MVC, Jquery, Hibernate ORM, PostgreSQL.

## EDUCATION

### Universidad Privada del Norte, Trujillo – *Software Engineer*

2010 - 2015, TRUJILLO

## LANGUAGES

- Spanish (native)
- English (advance)

## HOBBIES

- Draw and painting
